**Function Field Battle!**

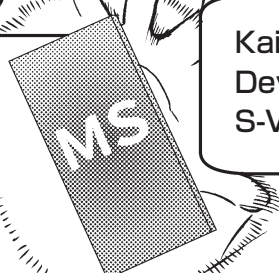

**Kaito!**

Hope you're ready to lose today.  
I'm gonna take out your old  
MS even if you demonstrate  
a quick shot.

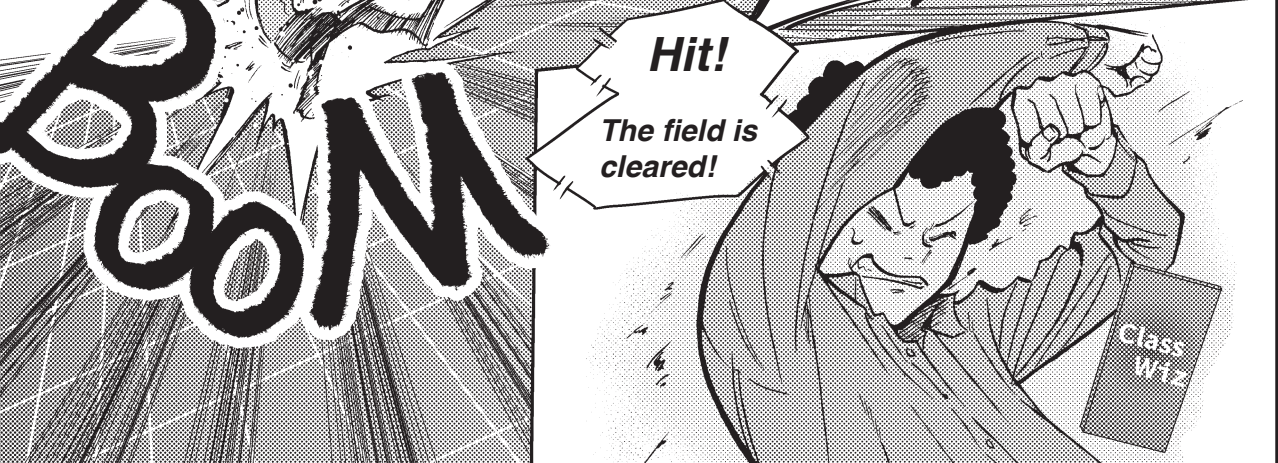

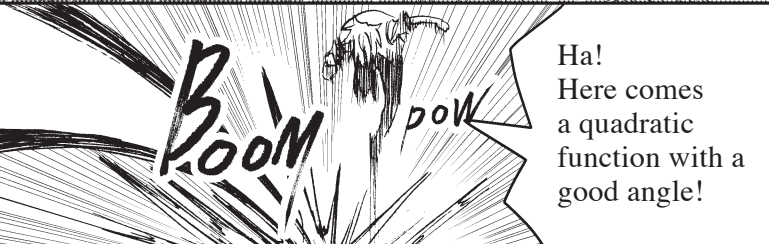

**Using this latest  
ClassWiz!**

# Casio Academy

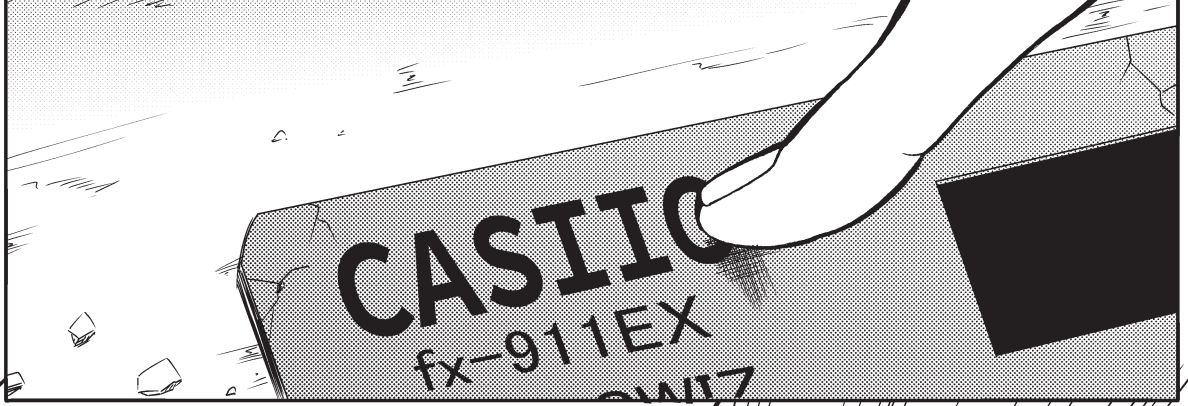

Function Field Battle is a game that expresses formulas and functions as power vectors! Calculate the functions quickly and accurately in order to swiftly attack your opponent!

Kaito and his friends compete every day to increase their Math Power!

**It's a fake!**

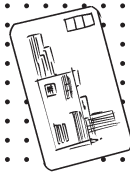

**Casio?!**

*Casio?!*

*Ha Ha Ha Ha*

Fakes  
really exist!

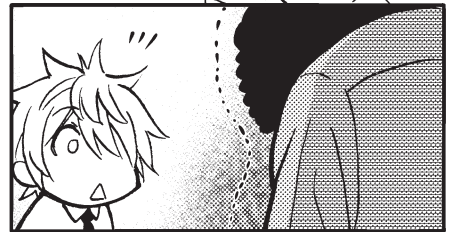

For example, the  
solar panel inside of  
some fakes is just a  
decoration.

Other fakes have  
the battery stuck  
inside and it can't be  
replaced.

Fakes might look like  
the real thing, but the  
inside is a mess and the  
quality is garbage.

**It's true!**

**A fake...?!**

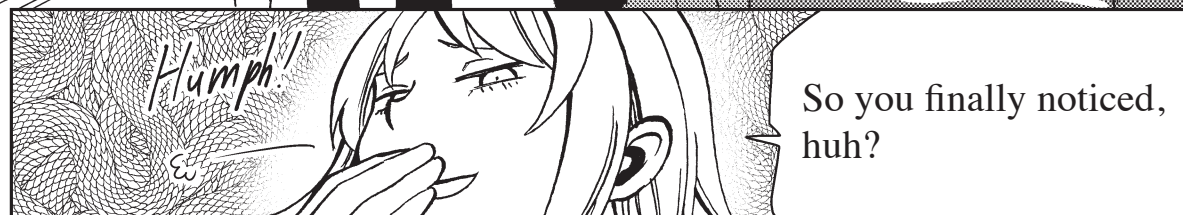

That jerk...he  
tricked me!

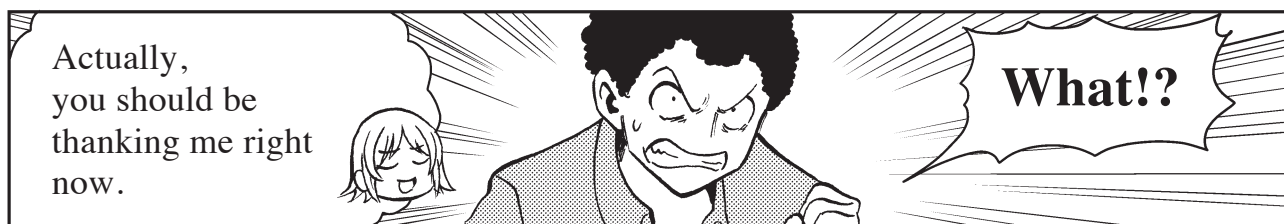

**You jerk! You set me up with a fake!!**

Device used: fx-991EX  
ClassWiz (genuine device)

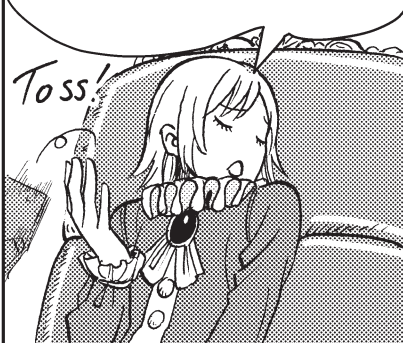

So you finally noticed, huh?

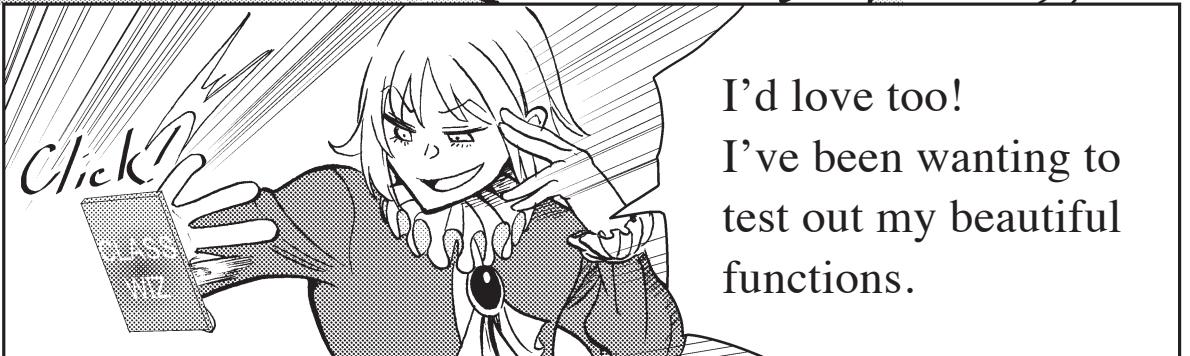

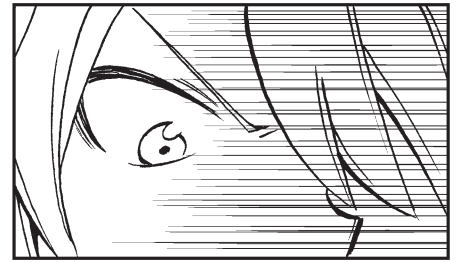

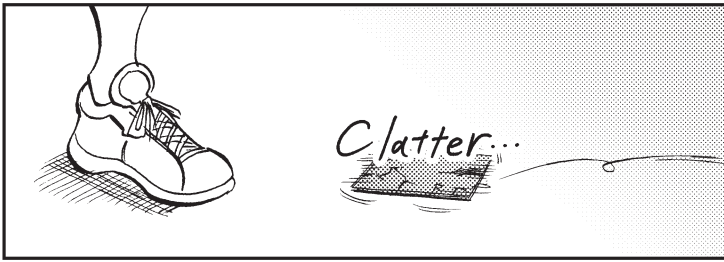

A dull person like you isn't worthy of a real ClassWiz.

I just sent you to a store where you could buy something suitable for your lowly stature.

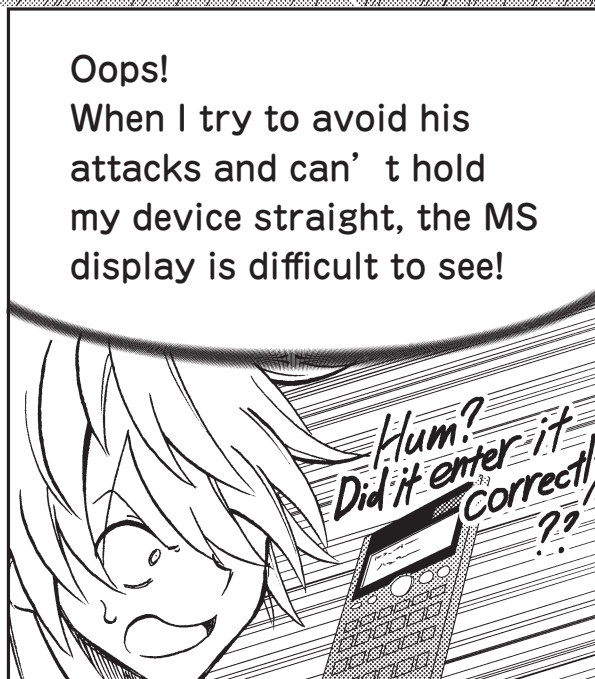

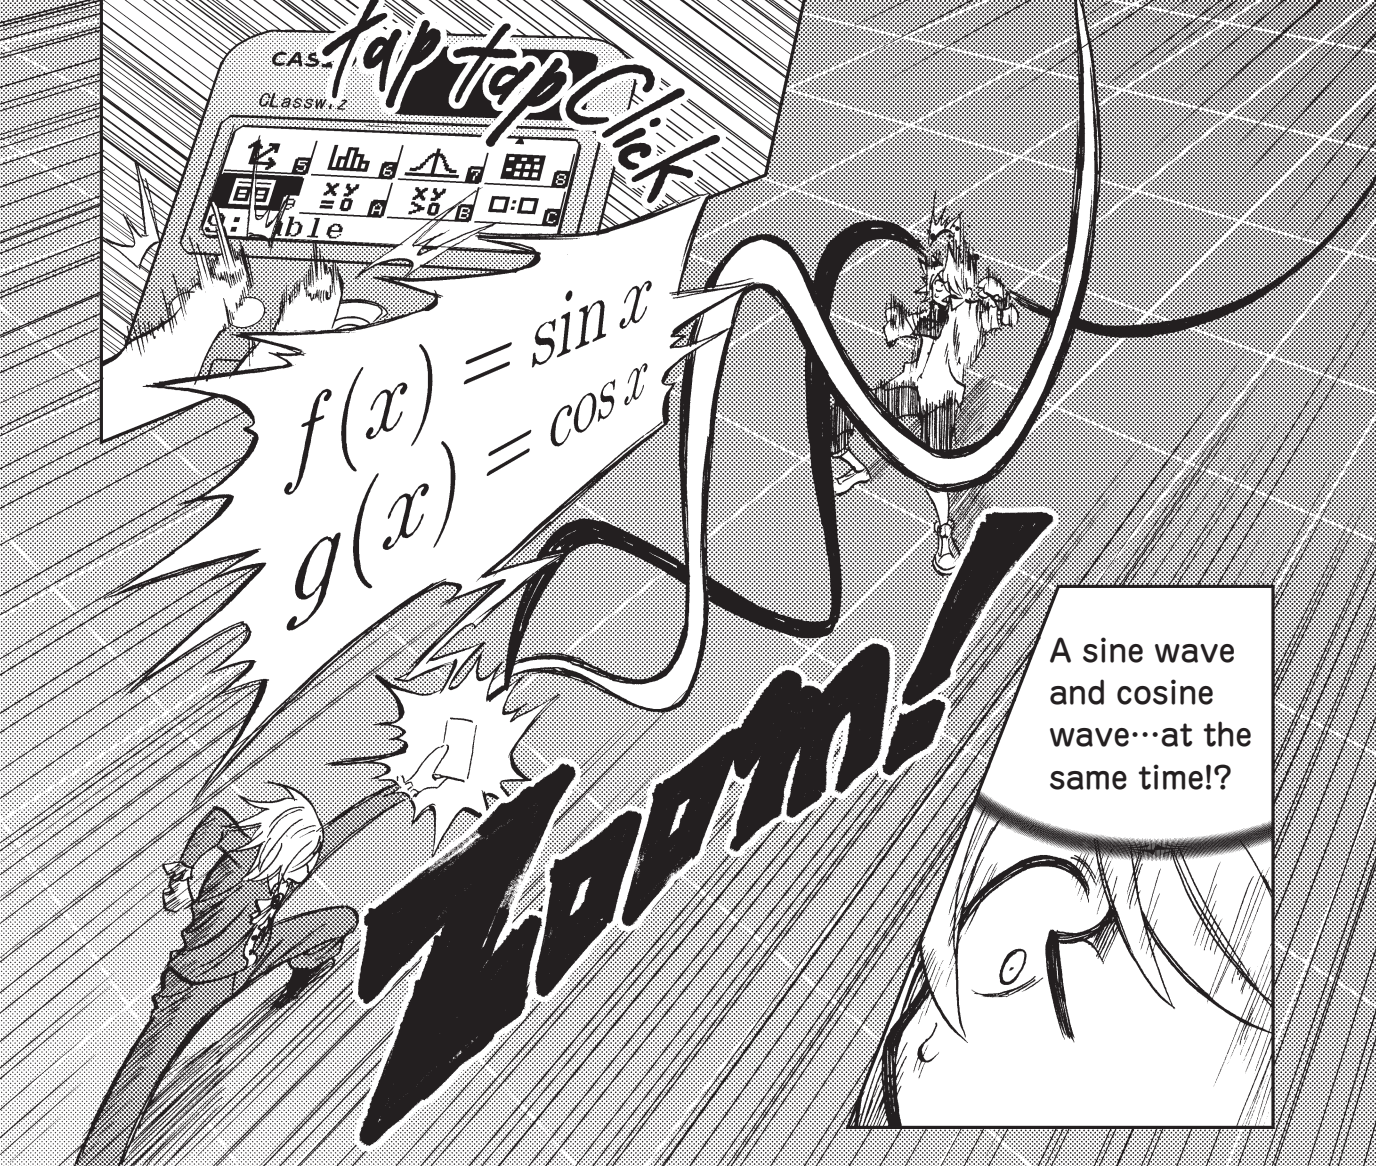

Oh man!  
Now the printing is peeling off...  
I hate fakes!

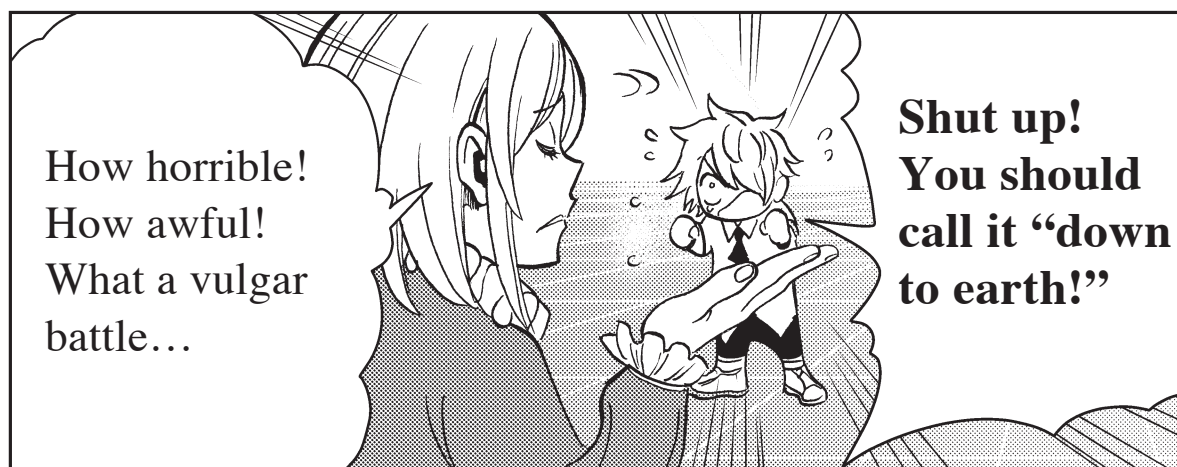

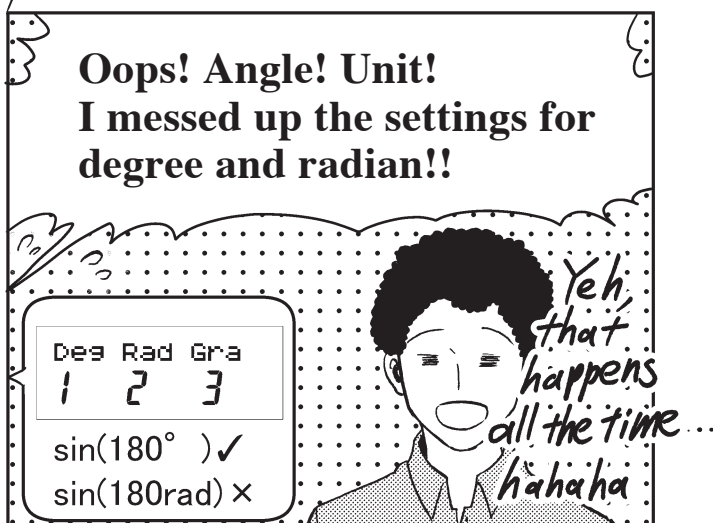

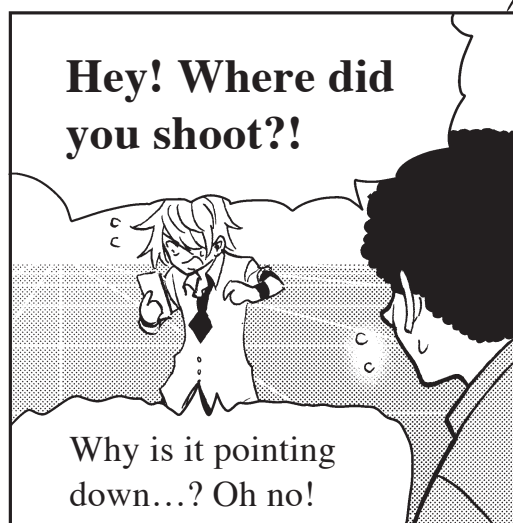

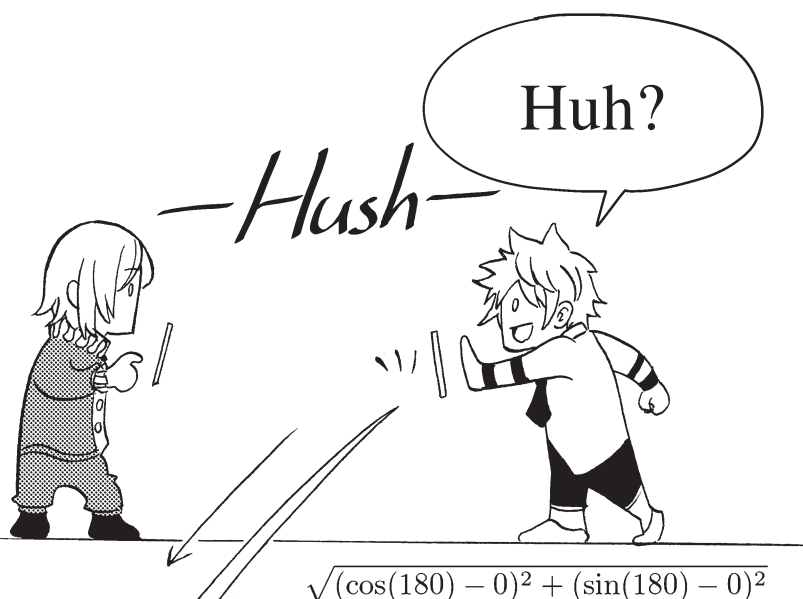

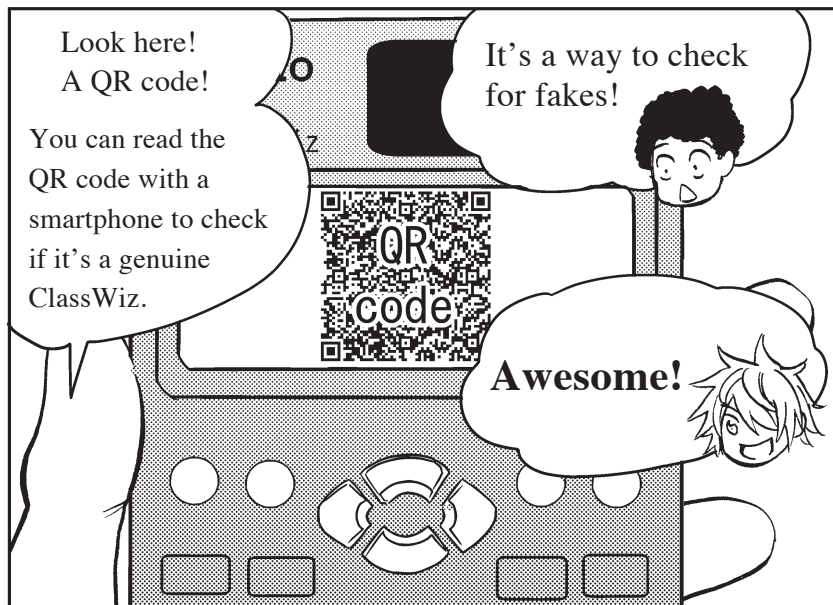

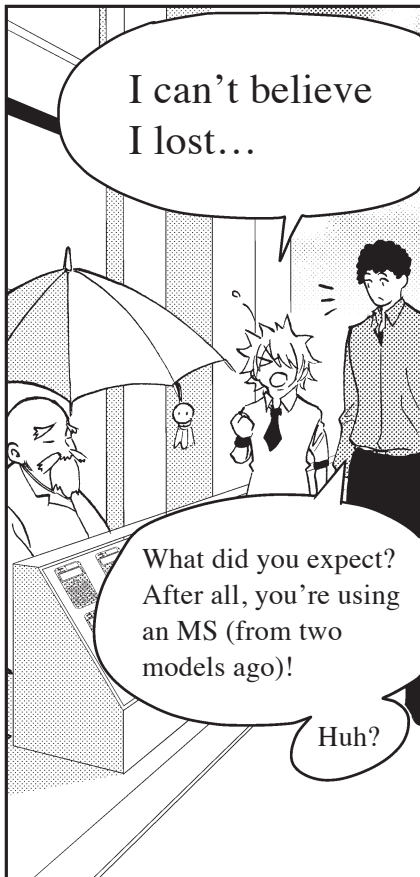

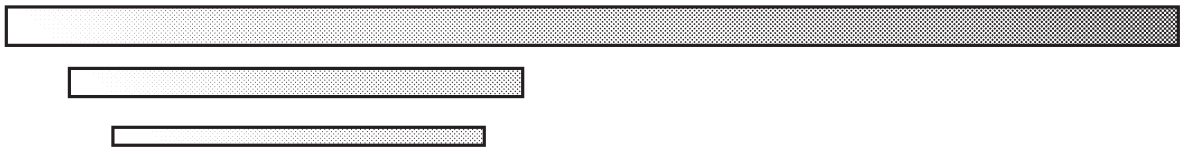

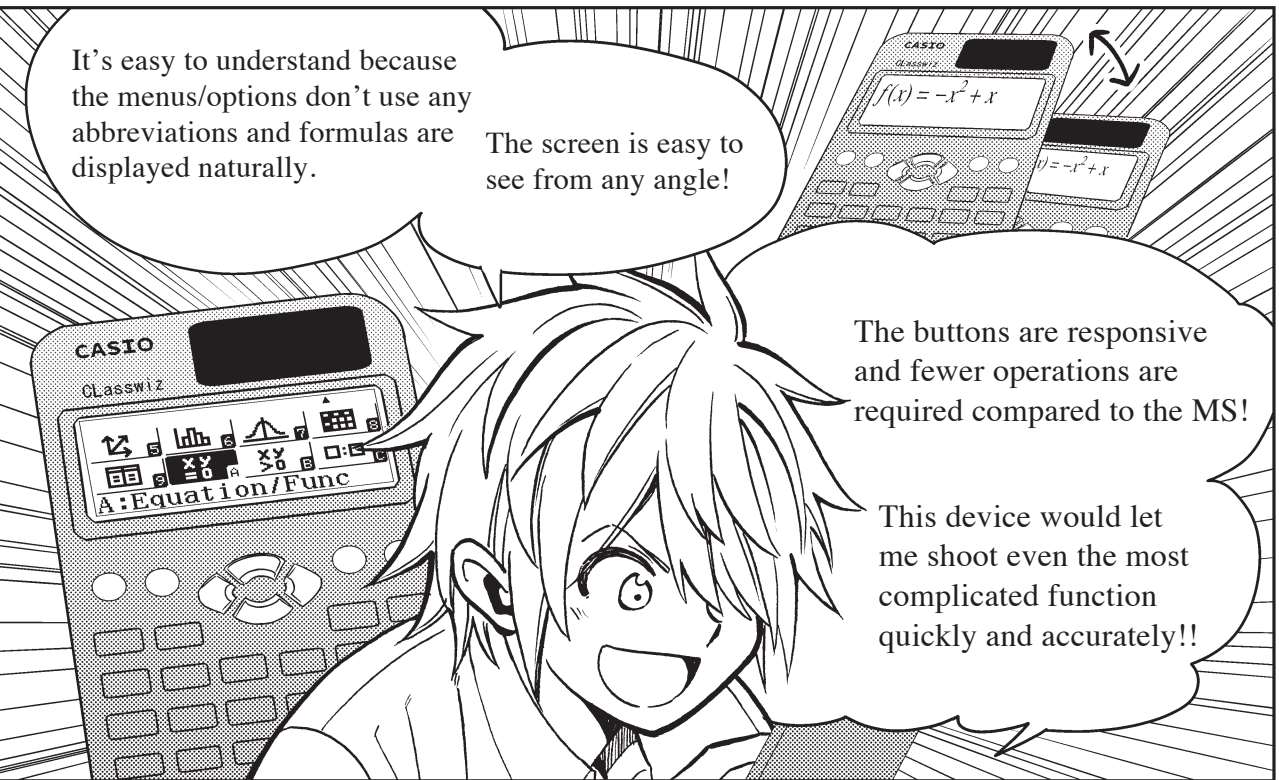

Hum?  
Did it enter it  
correctly  
??

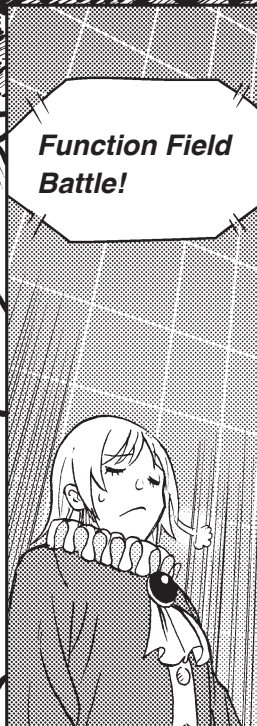

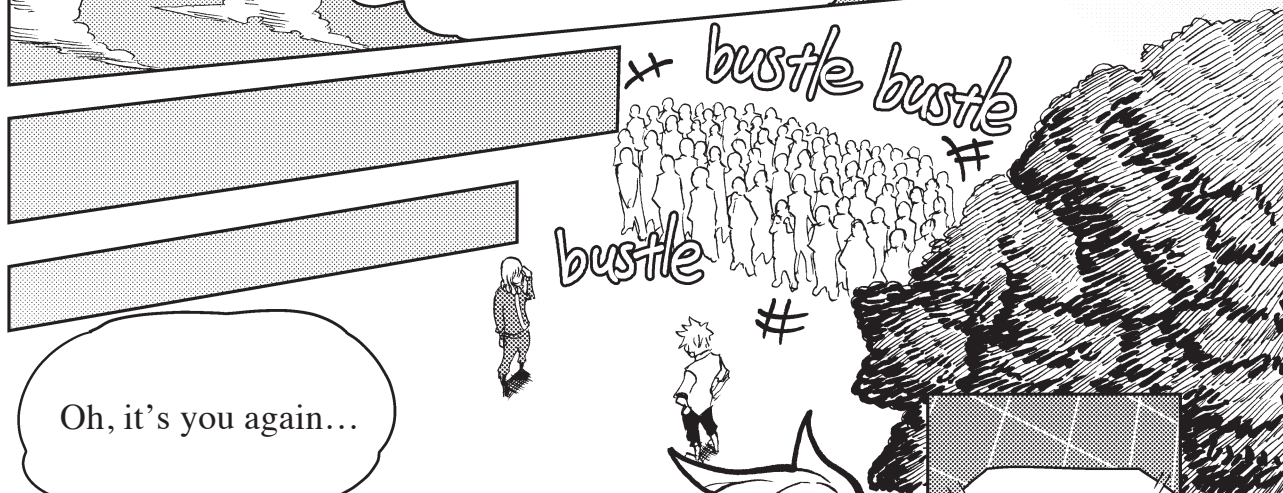

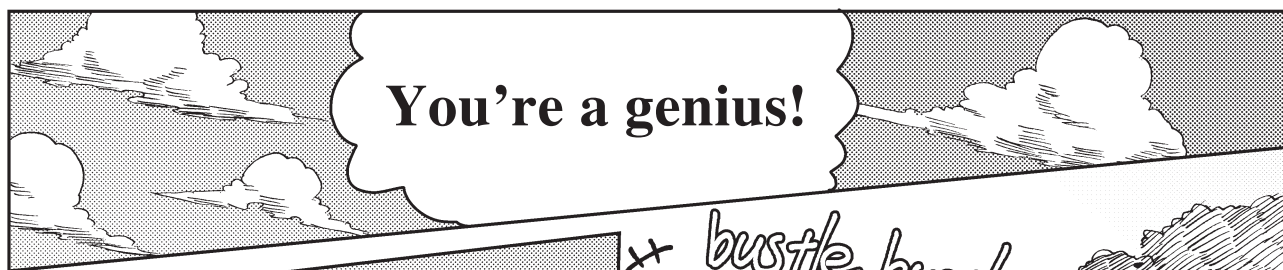

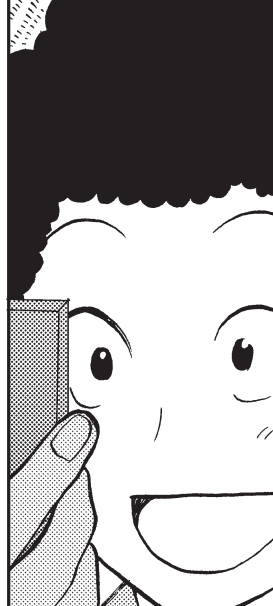

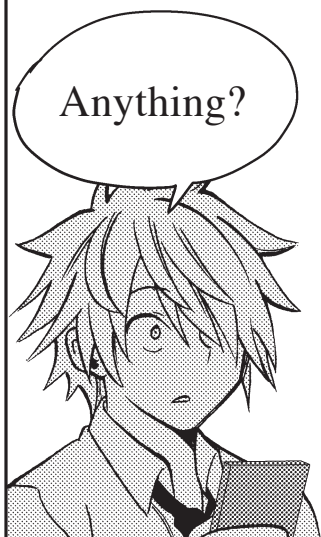

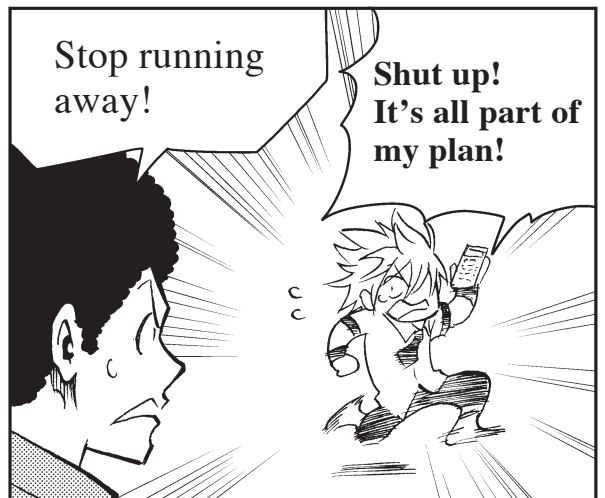

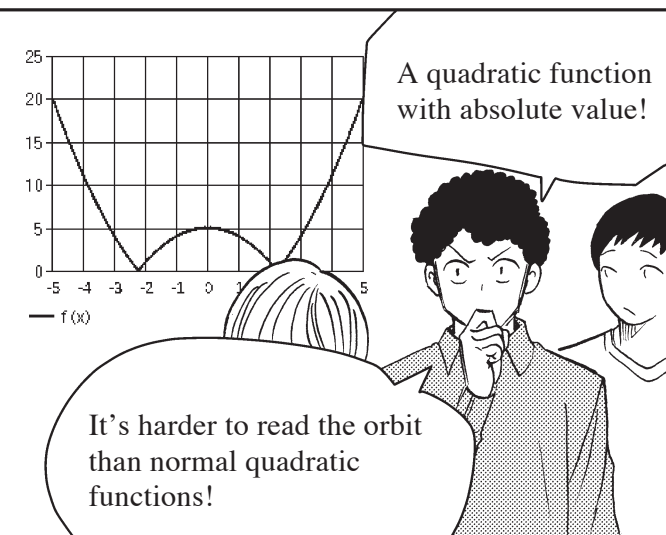

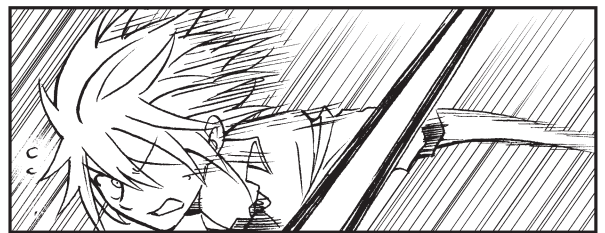

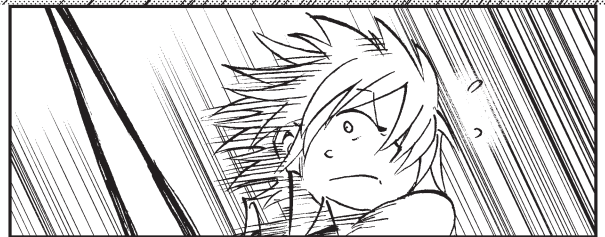

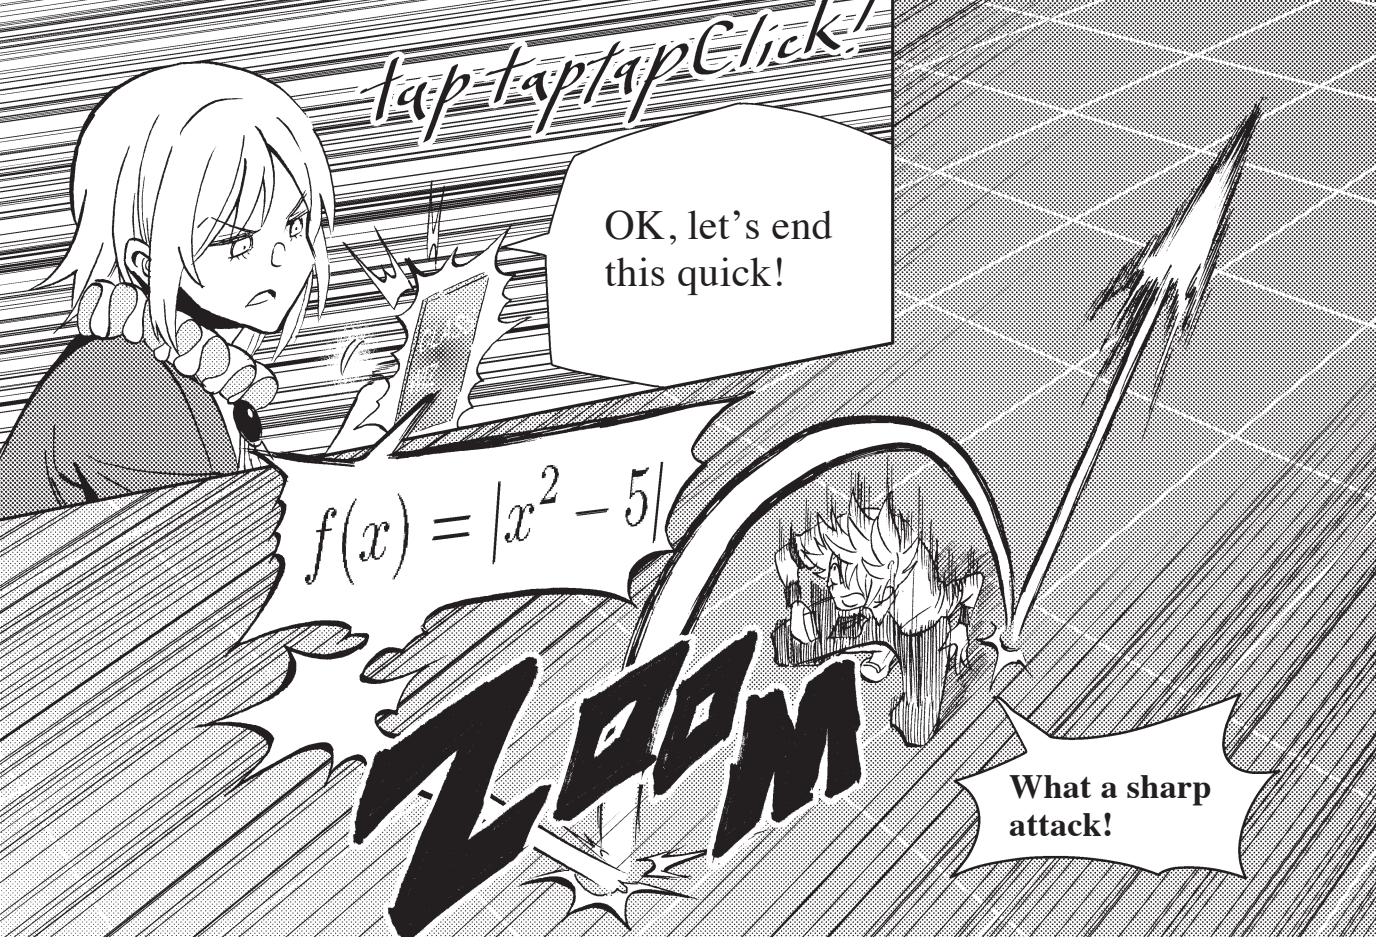

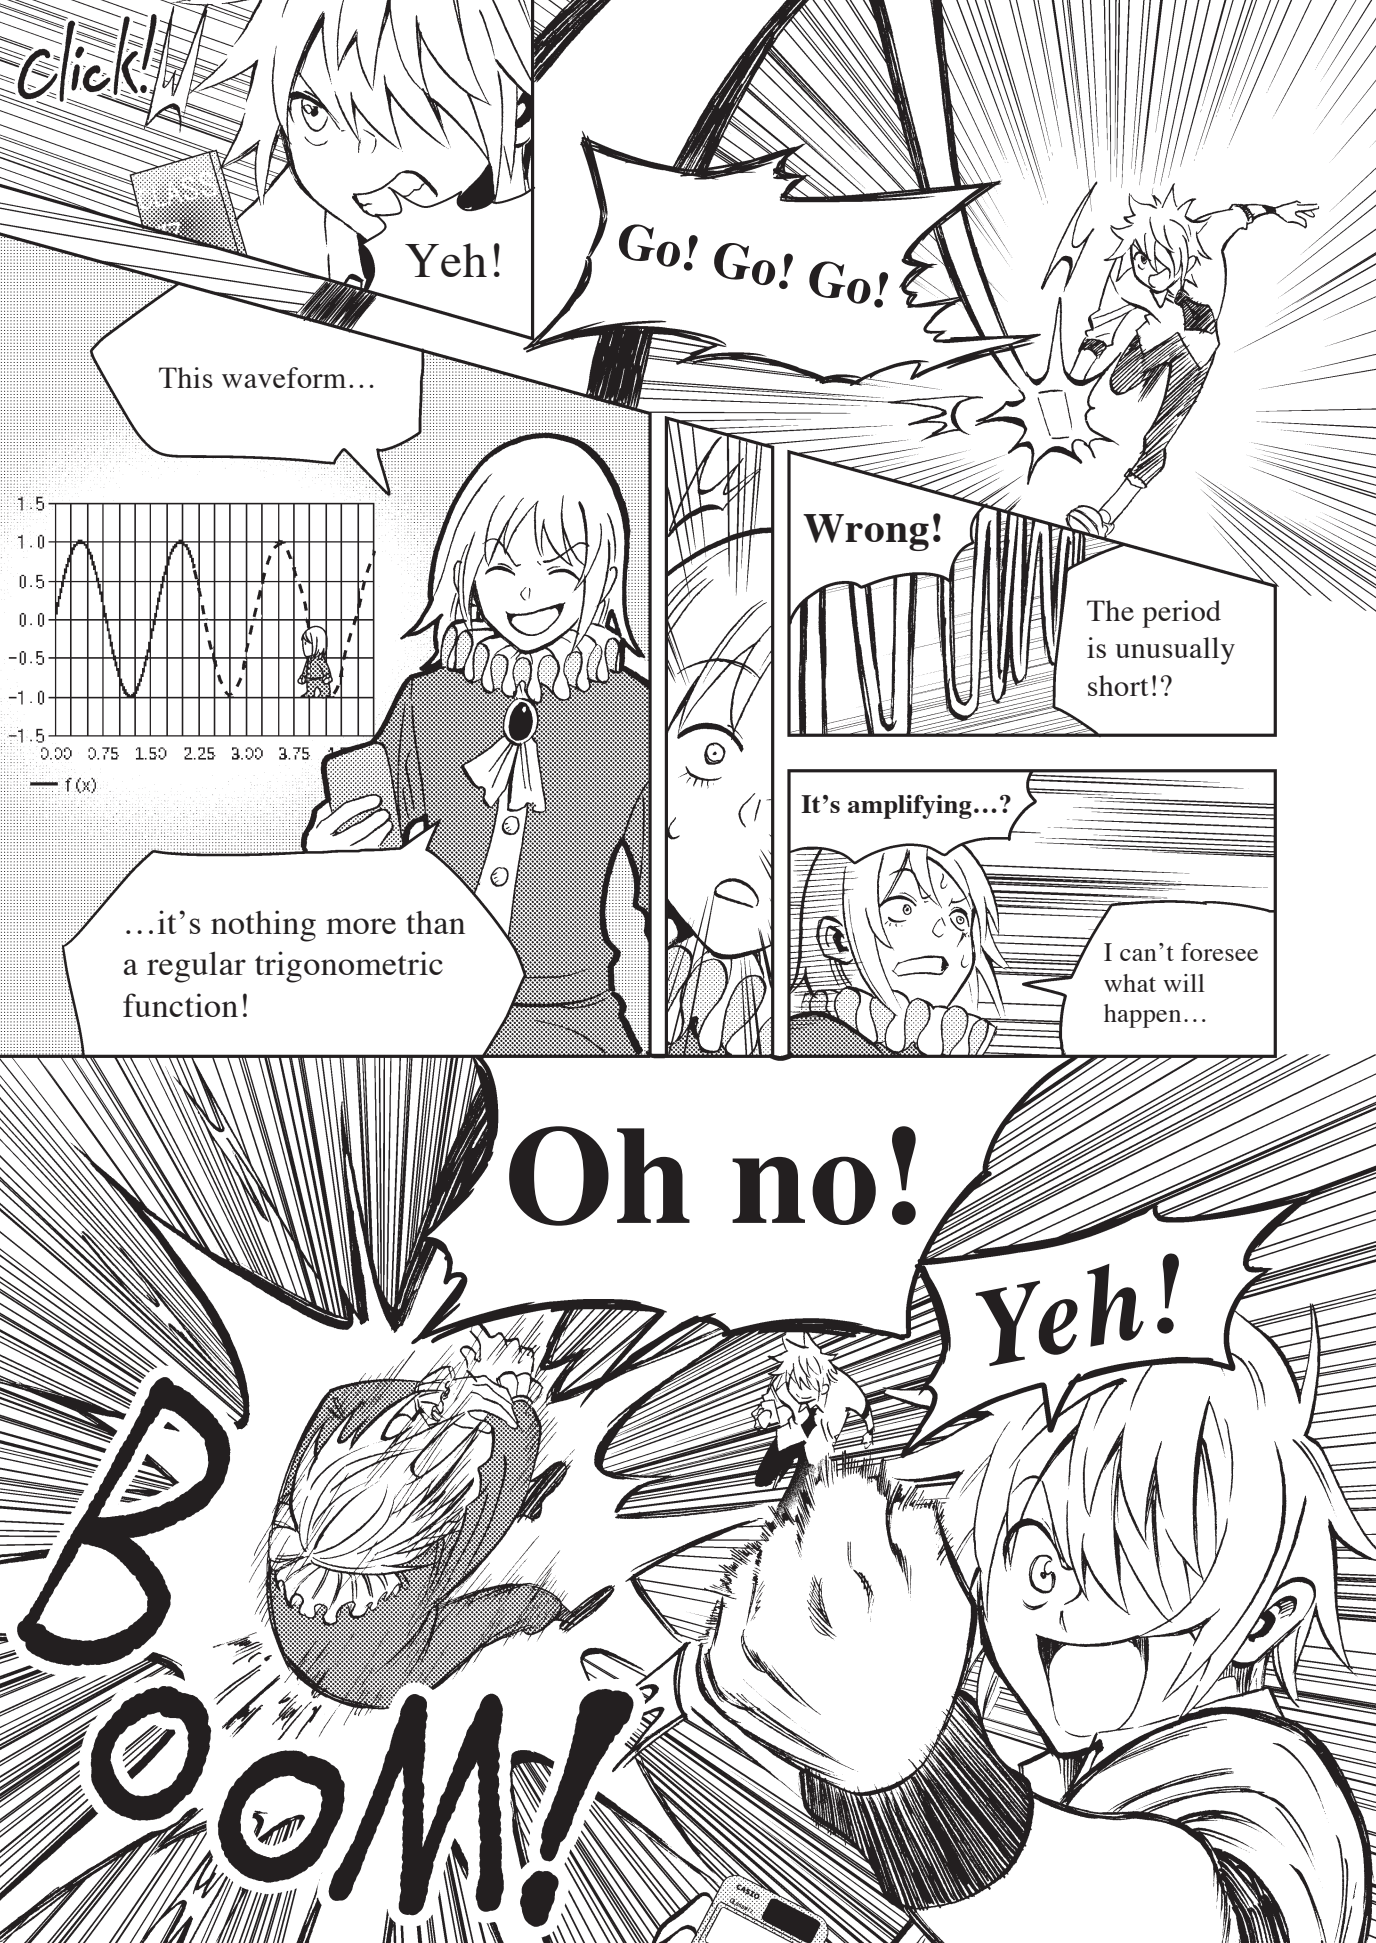

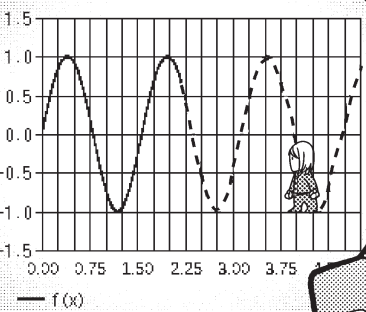

Click!!

Yeh!

Go! Go! Go!

This waveform...

...it's nothing more than a regular trigonometric function!

Wrong!

The period is unusually short!?

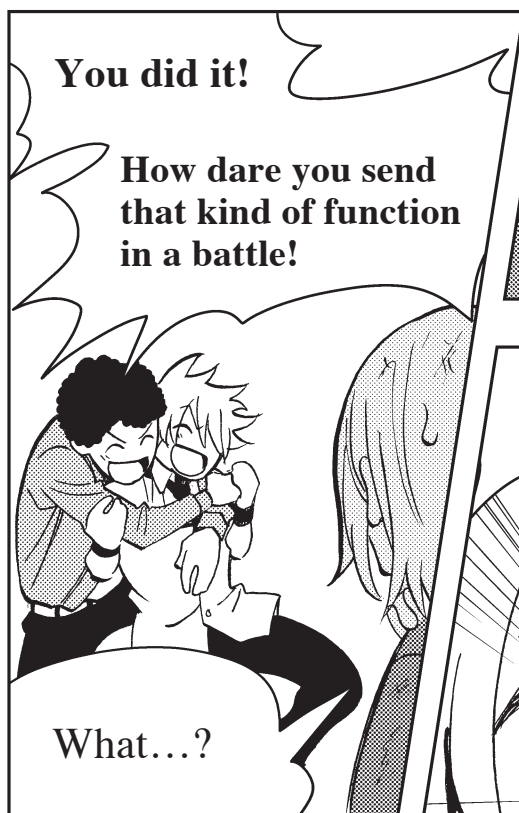

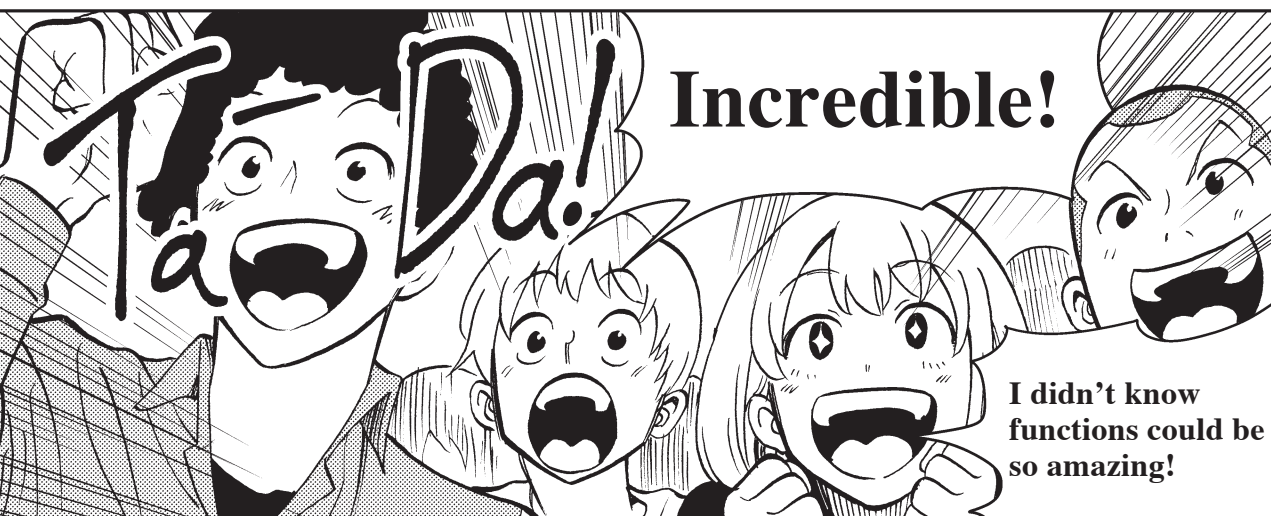

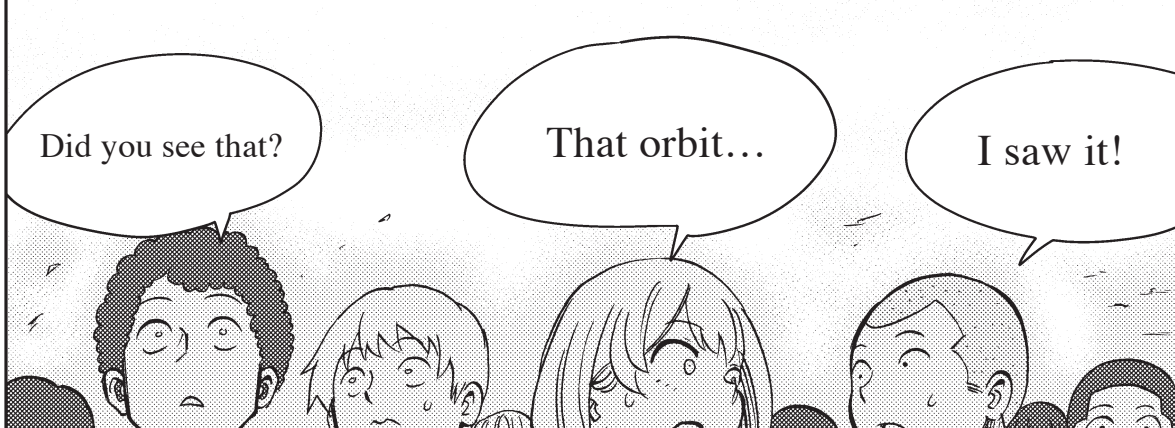

It's amplifying...?

I can't foresee what will happen...

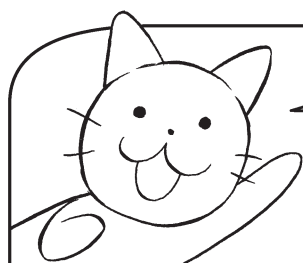

Oh no!

Yeh!

BOOM!!

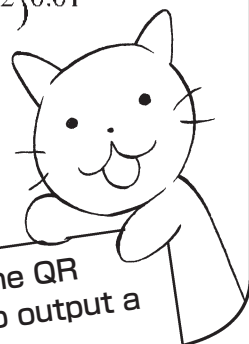

What did the guys see?!  
Try entering it yourself!

$$(\sqrt{\cos(x) \times \cos(150x)} + \sqrt{|x|} - 0.7) \times (4 - x^2)^{0.01}$$

★Hint  
Passion/feeling

Read the QR  
code to output a  
graph!

How?

quiver  
quiver...

How could I lose to  
such a dull and foolish  
function...?

There's nothing foolish  
about it!

Mathematics is not only  
for beautiful things!
